A

Acute respiratory distress syndrome (ARDS)
- activation of polymorphonuclear leucocytes 709
- after bone marrow transplantation 732
- after intravenous injection of ether 624
- American-European Consensus Conference 378
- amiodarone-induced lung toxicity 626
- analysis of exhaled air 403e, 415
- bronchoalveolar lavage 645c, reply 646c
- bronchoalveolar lavage fluid characteristics 296
- chest radiographs 1152
- complications of prone position 276c
- gas exchange and pulmonary haemodynamic responses to fat emulsions 918
- due to all-trans retinoic acid 642c
- following bilateral femoral nailing 641c
- haemodynamic profile 1018
- inhaled prostacyclin 1228
- intravenous injection of lamp oil 87c
- leukaemia inhibitory factor 366
- long chain vs. medium chain lipids 1029
- menigitis and permissive hypercapnia 616
- nebulized salbutamol 88c, reply 88c
- oxygen toxicity 422
- oleic-acid induced lung injury 709
- permisive hypercapnia 1339
- prophylactic PEEP 1e
- pulmonary alveolar proteinosis 265
- surfactant instillation 494
- toxic shock syndrome 258
- volume-pressure curve 886

Acute lung injury *(see also ARDS)*
- after bone marrow transplantation 536c
- after gold-salts compunds administration 1110
- continuous rotational therapy 132
- expert panel 878
- electrical impedance tomography 829
- head trauma 1115
- inhalation of fabric protector 55
- inhaled nitric oxide 1226
- ventilator induced 102e

ACTH
- ruptured aortic aneurysm 124
- stimulation of cortisol excretion 100e

Albumin
- fluid replacement after plasma exchange 452
- volume replacement strategies 147
- vs. hydroxyethyl-starch 28

Alcohol withdrawal syndrome
- ethanol elimination rate 459
- crush syndrome 1231c

Amiodarone
- lung toxicity 626
- atrial tachyarrhythmia after cardiac surgery 654r

Amphetamines
- acute poisoning 198c, reply 199c

Anticholinergics
- near fatal intoxication 730
- status asthmaticus 105r

Antithrombin III (AT III)
- DIC during septic shock 1344c, reply 1344c
- in patients with severe sepsis 663
- meningococcal disease 157
- sepsis 336, 649e

Anticoagulation
- atrial tachyarrhythmia after cardiac surgery 654r

Aortic aneurysm
- adrenal function 100e
- adrenocortical function 124
- gastric intramucosal pH-guided therapy 769
- human recombinant growth hormone 128

APACHE (see *scoring systems*)

Atracurium
- modulation of synaptosomal plasma membrane 519

Arrhythmia
- atrial: after cardiac surgery 654r
- flecainide overdose 740

Ascorbic acid
- NO-induced methemoglobinemia 612

Asthma
- hyperlactatemia 304
- medical and ventilatory management 105r
- severe hypercapnia 1335

Auto-PEEP
- in severe COPD 898r
- status asthmaticus 105r

B

Barotrauma
- mechanical ventilation in COPD patients 898r

Beta blockers
- atrial tachyarrhythmia after cardiac surgery 654r

Brain death
- skull base fracture 890c
- single photon emission computed tomography 895e, 911

Book review 537, 1347

Bronchoalveolar lavage (BAL)
- ARDS 645c
- characteristics in ARDS 296
- deterioration of pulmonary mechanics 1289
- interleukin-6 in children undergoing open heart surgery 481
- perfluorocarbone 501
- pulmonary alveolar proteinosis 265
- sheep model for MOF after trauma 590
- with diluted surfactant suspension 494

Bronchodilator
- acute severe asthma 304
- status asthmaticus 105r

C

C1-esterase inhibitor
- after emergency coronary surgery 635

Calorimetry
- energy expenditure in mechanically ventilated children 464

Candida
- epidemiology, diagnosis, treatment 206r
- in surgical patients 1120

Cardiac arrest
- neurologic prognosis 535c

Cardiac contusion
- troponin I 569

Cardiac dysfunction/failure
- in sepsis 286r, 990c, reply 991c
- neuroleptic malignant syndrome 86c
- peripartum cardiomyopathy 988c

Cardiac output
- best PEEP 821
- central venous pressure 651e
- low-dose dopamine in septic shock 564
- measurement with esophageal Doppler 347
- PEEP 89c, reply 90c

Cardiac surgery
- after failed PTCA 635
- atrial tachyarrhythmia 654r
- endogenous endotoxemia during cardiopulmonary bypass 748c, reply 749c
- gastric tonometry 1139
- haemodilution and gastric mucosal pH 313
- interleukin-6 in children undergoing open heart surgery 481
- L-selectin and capillary leak 1093
- measurement of coagulation 1187
- procalcitonin levels 680
- split lung ventilation after Blalock-Taussig anastomosis 1232c
- transient inhibiton of gastric secretion 1139

Cardiopulmonary bypass
- endogenous endotoxemia 748c, reply 749c
- gastric mucosal acidosis 321
- gastrointestinal permeability 280c, reply 280c

ESICM statement 848
in the critically ill 984
fat emulsions in ARDS 918
enteral vs. parenteral: effect on hepatic blood flow 795
enteral vs. parenteral: effect on propofol pharmakokinetics 795
long chain vs. medium chain lipids in ARDS 1029
parenteral: different fat emulsions 716

O

Opioids
cardiovascular response to haemorrhage 405
Outcome
coma after cardiac arrest 535c
comparisons of ICU performance 1126e
electrocution 255
head injury 236
hemofiltration/hemodiafiltration 93c, reply 94c
hypoxemic respiratory failure in children 530
interleukines and gastric mucosal pH in abdominal surgery 329
prior health status 691
uniformity of fit of prediction models 40
Oxygen consumption
cellular dysoxia during liver transplantation 268
fenoldopam 509
in critical illness 97e
in surfactant-depleted piglets 358
reduction by endotoxin in hepatocytes 725
septic shock 118
vascular reactivity and tissue oxygenation 3r
Oxygen delivery/transport
best PEEP 821
cellular dysoxia during liver transplantation 268
fenoldopam 509
hepato-splanchnic region 542r
in critical illness 97e
in surfactant-depleted piglets 358
septic shock 118
vascular reactivity and tissue oxygenation 3r
Oxygen supply dependency
in critical illness 97e
septic shock 118
vascular reactivity and tissue oxygenation 3r
Oxygen toxicity
in acute respiratory failure 422

P

Patient data management
evaluation of systems 167
intensive care information system and outcome prediction 953
statistical pattern detection 1305
Pancreatitis
enteral nutrition 848
gram-negative intestinal colonization 438
somatostatin 37
Partial liquid ventilation
ARDS 878
in an experimental model of meconium aspiration 501
Pediatric and neonatal intensive care
Acute respiratory distress syndrome
case mix and severity indices 699
Calorimetry
energy expenditure in mechanically ventilated children 464
Cardiopulmonary bypass
interleukin-6 481
Bronchopulmonary dysplasia
functional residual capacity 469
Energy expenditure
in mechanically ventilated children 464
Functional residual capacity
assessment 469
Interleukin-6
in children undergoing open heart surgery 481
Mechanical ventilation
energy expenditure 464
high frequency oscillatory ventilation 90c, reply 91c
measurement of respiratory mechanics 1083
tracheal gas insufflation 1076
weaning 1070
Methaemoglobinaemia
NADH-diaphorase deficiency 706
Pulse oxymetry
assessment of pulsus paradoxus 242
methaemoglobinaemia and NADH-diaphorase deficiency 706
Respiratory failure
case mix and severity indices 699
high frequency oscillatory ventilation 90c, reply 91c
pertussis 1089
Respiratory distress syndrome
predictive scoring system for chronic lung disease 476
Scoring systems
chronic lung disease 476
TISS and costs 1062
Theophylline
urine output 1099
Perfluorocarbone
ARDS 378, 978
in an experimental model of meconium aspiration 501
Permissive hypercapnia
ARDS 1339
consensus conference on ARDS 378
lung injury, meningitis and cerebral edema 616
mechanical ventilation in COPD patients 898r
status asthmaticus 105r
Physostigmine
intoxication with anticholinergic 730
Plasma exchange
fluid replacement 452
Platelet activating factor
cardiac dysfunction in sepsis 286r
bronchoalveolar lavage in ARDS 296
Platelets
nitric oxide 1199
nitric oxide inhalation 837
prognostic factor in meningococcal disease 157
Pneumonectomy
hepatocyte growth factor 434
Pneumonia
after bone marrow transplantation 536c
S. aureus – community acquired 189
S. aureus infections during ciprofloxacin treatment 1327
Polymorphonuclear leucocytes
migration through endothelial cell monolayers 973
oleic-acid induced lung injury 709
surface antigens in trauma 152
Positive end-expiratory pressure (PEEP)
best PEEP – ramp manouevre 821
cardiac output and tricuspid regurgitation 89c, reply 90c

consensus conference on ARDS 378
mechanical ventilation of COPD patients 898r
prophylactic use 1e
reduction of experimental bacteremia 172
ventilator induced lung injury 102e
Prediction
deterioration of respiratory function after transfer of ICU patients 1157
intensive care information system 953
mortality in Spanish ICU patients 582
outcome after electrocution injury 25
PRISM III 1299
uniformity of fit of general outcome prediction models 40
Pressure support ventilation
clinical management of weaning 999r
in severe COPD 898r
non-invasive in COPD 1277
non-invasive in trauma patients 785
Pressure-time product
EVITA-2, EVITA-4, SV 300 931
Primary pulmonary hypertension (PPH)
aerosolization of iloprost 631
Procalcitonin
after different types of surgery 68
iatrogenic sepsis 888c
posttraumatic systemic inflammatory response syndrome 185
Prognosis
coma after cardiac arrest 535c
gram-negative intestinal colonization in acute pancreatitis 438
haemodynamic profile in ARDS 1018
lactate in acute severe asthma 304
platelets in meningococcal disease 157
Prone position
complications 276c
consensus conference on ARDS 378
myositis ossificans 1345c, reply 1346c
Prophylaxis
antifungal 206r
maternal-fetal HIV-transmission 247
stress ulcer in ICU 201e, 217
Propofol
cilia beat frequency 791
pharmakokinetics during enteral and parenteral feeding 795
Prostacyclin
abdominal aortic surgery 322
iloprost for primary pulmonary hypertension 631
pulmonary hypertension 1228
release inhibition by AT III 649e
vascular reactivity and tissue oxygenation 3r
Prostaglandins
cardiac dysfunction in sepsis 286r
ibuprofen and renal function 322
Psychogenic polydypsia
implications for diagnosis and treatment 643c
lethal complication 644c
Pulmonary artery pressure
dicrotic notch 77
prognosis in ARDS 108
Pulmonary alveolar proteinosis
acute myeloid leucemia 265
Pulmonary edema
after Blalock-Taussig anastomosis 1232c
after intravenous injection of ether 624
best PEEP 821
hydrochlorothiazide-induced 363
nitroglycerin vs. urapidil 557
reexpansion 1117c
ultrasound 1331
Pulmonary embolism
endothelin-1 as mediator of the pressure response 605
nitric oxide 399c, reply 399c, 747c, reply 747c
applications of thrombolytic therapy 756e
transesophageal echocardiography 429
Pulmonary hypertension
after lung transplantation 1173
inhaled prostacyclin 1228
mediated by endothelin-1 in pulmonary embolism 605
Pulse oxmetry
methaemoglobinaemia 706
pulsus paradoxus 242
reduction in alarm frequency with a new pulse oxymeter 277c

Q

Quality of life
after treatment with hemofiltration/hemodiafiltration 93, reply 94c

R

Ranitidine
gastric intramucosal pH 12
prevention of excess gas 1123e
reliable gastric tonometry 1139
Renal failure
enteral nutrition 848
hemodiafiltration with citrate anticoagulation 262
risk factors in trauma 808
toxic shock syndrome 258
Renal function
ibuprofen and epidural anaesthesia 322
low-dose dopamine in septic shock 564
sheep model for MOF after trauma 590
Reteplase
thrombolytic therapy 756e
Rhabdomyolysis
alcohol withdrawal syndrome 1231c
renal failure in trauma 808
Rheumatoid arthritis
ALI after gold-salts compunds administration 1110
case of cricoarytenoid arthritis 643

S

Scoring systems
APACHE III for mortality predictions in Spanish ICU patients 574
comparisons of ICU performance 1126e
EuroQuol and hospital outcome among the critically ill 691
general outcome prediction models 40
intensive care information system and outcome prediction 953
Karnofsky Performance Status Scale and hospital outcome among the critically ill 691
Omega system: resource allocation 582
PRISM III 1299
TISS and costs 995e, 1009, 1062
to predict evolution of respiratory distress syndrome into chronic lung disease 476
Waterlow pressure sore risk scale 815
Sedation
continuous bispectral EEG 1294
effects of midazolam and propofol on cilia beat frequency 791
mechanical ventilation in severe COPD 898r
severe head-injury 1221
status asthmaticus 105r
Selective digestive decontamination (SDD)
antifungal prophylaxis 206r
endogenous endotoxemia during cardiopulmonary bypass 748c, reply 749c
Sepsis (see also *septic shock* and *SIRS*)
after liver transplantation 1343c
AT III 336, 649e
cardiac dysfunction 286r, 990c, reply 991c
c-reactive protein as indicator 1052
critical illness neuromuscular abnormalities 1242r
hepatic micrcirculatory dysfunction and sodium nitroprusside 1257
human albumin vs. hydroxyethyl-starch 28
multi-center trial with AT III 663
NO synthase inhibition vs. NO scavenging 48
nuclear factor κB 1129e, 1131r
respiratory burst of neutrophils 1181
stimulation of adenylate cyclase 1315
Septic shock (see also *sepsis* and *SIRS*)
AT III 336, 1344c, reply 1344c
disseminated microfoci 73
fenoldopam 509
hemoperfusion with polymyxin B-immobilized fiber 1272
increased microvascular water permeability 18
low-dose dopamine 564
meningococcal disease 157
nitric oxide 1239e
nitric synthase inhibition 673
oxygen supply dependency 118
toxic shock syndrome 190, 258
Sodium nitroprusside
endotoxic nitrosopenia 1239e
hepatic micrcirculatory dysfunction in endotoxaemia 1257

Somatostatin
  acute pancreatitis 37
Spectrophotometry
  mucosal blood flow 542r
Splanchnic perfusion
  cardiopulmonary bypass, haemodilution, and gastric mucosal acidosis 321
  distal colon ischemia in pigs 178
  fenoldopam 509
  inhaled prostacyclin 1228
  major abdominal surgery 329
  monitoring 542r
  systemic and regional pCO_2 gradients 599
Stellate ganglion block
  ischemia after brachial artery puncture 197c
Streptokinase
  applications of thrombolytic therapy 756r
  post-haemorrhagic hydrocephalus 526
Stroke
  ischemic – thrombolytic therapy 756e
Surfactant
  bronchoalveolar lavage in ARDS 296
  bronchoalveolar lavage with diluted suspension 494
  depleted – oxygen consumption and delivery 358
  inhalation of fabric protector 55
Syringe pumps
  design flaws 646c
  elevation manoeuvre 278c
Systemic capillary leak syndrome
  recurrent episodes with hypovolemic shock 981
Systemic inflammatory response syndrome (SIRS) (see also *sepsis* and *septic shock*)
  amiodarone-induced lung toxicity 626
  analysis of exhaled air 403e
  cardiopulmonary bypass in children 481
  following bilateral femoral nailing 641c
  nuclear factor κB 1129e, 1131r
  procalcitonin after trauma 185
  Sweet's syndrome 1106

T

Theophylline
  acute severe asthma 304
  status asthmaticus 105r
  urine output in diuretic-dependent critically ill children 1099
Thrombocytopenia
  hemodiafiltration with citrate anticoagulation 262
Thrombolysis
  applications 756r
Thromboxane A_2
  pulmonary embolism 605
Tissue factor
  inhibition by nitric oxide 1199
Tissue plasminogen activator
  applications of thrombolytic therapy 756r
Tonometry
  air vs. saline and other equilibrating fluids 777
  cardiopulmonary bypass and gastric mucosal acidosis 321
  cellular dysoxia during liver transplantation 268
